Technology

Loyola Institute Of Technology and
Science

Anna University (first class)

Skills

Soft Skills :

- Critical Thinking
- Problem-Solving
- Leadership
- Decision-Making
- Strategic Planning
- Team Leadership

Technical Skills :

- Proficiency in .NET
- Proficiency in Angular
- Proficiency in CSS
- Proficiency in HTML
- Proficiency in SQL
Databases
- Application Development
- Database Management
- User Experience Design

About Me

Experienced in full-stack web development, database optimization, and troubleshooting. Passionate about building scalable web applications and continuously enhancing skills. Seeking an opportunity to apply my expertise while contributing to the company's success.

Experience

G2G TECHNOLOGIES

June 2021-Jan2025

Role - Full stack web developer

- Developed & maintained scalable web applications using HTML, CSS, JavaScript, AJAX, and SQL.
- Designed responsive UIs and optimized database performance.
- Integrated front-end features with backend systems.
- Led multiple projects, ensuring on-time delivery and high code quality.

Projects

School Campus Automation

- Implement role-based access control for tailored resource access for administrators, faculty, and students.
- Generate ID card barcodes to streamline identification and authentication, reducing time and errors.
- Utilize efficient course management and attendance tracking systems to optimize academic administration.
- Ensure accurate record-keeping and reporting through robust tracking systems.
- Enable offline and online data syncing for up-to-date and accessible information.
- Facilitate better decision-making and operational continuity with synchronized data.
- Send automated absence notifications directly to parents' mobile phones for effective communication.
- Enhance overall institutional management and improve the experience for all stakeholders involved.

Myrtle Fashion – Online Shop

- Developed the entire backend for a mobile-responsive e-commerce platform.
- Integrated secure payment gateways for safe transactions.
- Implemented product management, order processing, and user authentication features.
- Conducted end-to-end testing to ensure performance, security, and reliability.

Language

English (professional)

Tamil (native)

Personal Information

Date of Birth: 10/07/2000

Nationality: Indian

Marital Status: Married

Passport Number: C3030233

Freshy Shop-online

- Developed an interactive grocery e-commerce platform with optimized order processing.

Company Automation System (ERP for G2G Technologies)

- Built a comprehensive ERP system to manage HR, recruitment, payroll, training, and inventory
- Implemented role-based access control for secure multi-user authentication.
- Enabled image & PDF upload/retrieval for employee records and applicant tracking.
- Automated payroll processing, tax calculations, and expense tracking.
- Optimized SQL queries to improve system performance and reduce loading times.

Challenges & Solutions:

- File Retrieval Issue: Fixed incorrect file paths and optimized data queries for proper image & PDF retrieval.
- Slow Performance: Improved database indexing and query optimization for faster response times.
- Access Control Issues: Designed and implemented RBAC (Role-Based Access Control) for secure user permissions.

Brothers Book Management Website

- Built a book management system with image & PDF handling.
- Implemented search functionality for quick book retrieval.
- Designed a structured and user-friendly UI.

Declaration

I declare that the above information are true and correct to the best of my knowledge.

Thanks and regards,
SHAJINI SK.
